Sketching  
Wireframes  
Mockups  
Prototypes  
User Research  
User Stories

User Personas  
Usability Testing  
User Flows  
User Surveys  
Mobile Design

## Tools

Adobe XD  
Sketch  
Figma  
Balsamiq  
Maze

Usability Hub  
InVision  
VS Code

## Coding Skills

HTML/CSS  
Sass  
Javascript  
jQuery  
Bootstrap  
SQL

## Education

### Bloc

UX/UI & Front-End Development Apprenticeship

San Francisco, CA (Remote)

2019

### George Mason University

B.S. Information Systems & Operations Management

Fairfax, VA

2012

## Work Experience

### Bloomberg BNA

Business Analyst/UX Designer

Crystal City, VA

JAN 2016 - Present

Played a critical role in moving from a legacy business system to SAP. The SAP project required defining user stories, addressing gaps in workflows and systems, refining and updating business policies, and then building, testing, and delivering a world-class business system.

Designed wireframes, user flows and tested internal business system applications with end-users. Researched user pain points and provided feedback to developers.

Improved upon existing business workflows to automate manual processes using advanced MS Excel techniques and SQL queries.

Worked extensively with internal business systems and Salesforce for reports and analysis.

One of my improvements saved the company over 500 work hours and I was able to complete it in less than 40 using complex SQL queries and advanced MS Excel skills.

### Bloomberg BNA

Business Analyst/UX Researcher

Crystal City, VA

FEB 2015 - NOV 2015

Conducted user research and competitive analysis for a business application for a tax treaty database.

Researched competitors addressing gaps between the business application.

### American Postal Workers Union (APWU)

Business Analyst

Washington D.C.

MAY 2014 - JAN 2015

### Right Start Consulting

Analyst/Web Designer

Vienna, VA

SEP 2013 - FEB 2014
