Work Experiance

Bloomberg BNA   **Crystal City, VA**
Information Analyst   JAN 2016 - Present

Played a critical role in moving from our legacy business system to SAP. The SAP project required defining requirements, addressing gaps in workflows and systems, refining and updating business policies, and then building, testing, and delivering a world-class business system that enabled us to better serve our customers.

Designed internal business systems and workflows using MS Visio. Improved upon existing business workflows to automate manual processes using advanced MS Excel techniques and SQL queries.
